

JOSÉ MANUEL SÁEZ

About me

I consider myself a responsible, curious and hard-working boy. I am passionate about the world of computing, more specifically programming. In certain free moments I do projects for myself as an entertainment and as a way to broaden my knowledge and explore areas of programming that I have not touched before. I also like video games and badminton, a sport in which I have a coaching certification.

As a person, I am somewhat introverted at first with new people or environments, but I adapt quickly and along with that adaptation, that introversion disappears. I consider that I work well in a group, trying to give the best of me to everyone conforming the group.

Experiencie

**September
2022 -
November
2022**

Junior Full-Stack Developer

Grupo Trevenque

Development of incidents and new implementations within the Azeta Distributions portal, along with development and maintenance of incidents in another Azeta product, Weblib Marca Blanca.

**June 2022 -
September
2022**

Junior Full-Stack Developer

Grupo Trevenque

II implemented different developments on the "todostuslibros.com" page, front-end in HTML, CSS and JS and back-end developments in PHP under Laravel and PostgreSQL. The most notable thing would be an order evaluation system together with the generation of dynamic content newsletters.

**21st March
2022 -
10th June
2022**

Superior Degree practices
